The systems development life cycle (SDLC), also referred to as the application development life-cycle, is a term used in systems engineering, information systems and software engineering to describe a process for planning, creating, testing, and deploying an information system. The systems development lifecycle concept applies to a range of hardware and software configurations, as a system can ...

Child development entails the biological, psychological and emotional changes that occur in human beings between birth and the end of adolescence, as the individual progresses from dependency to increasing autonomy. It is a continuous process with a predictable sequence, yet having a unique course for every child. It does not progress at the same rate and each stage is affected by the preceding ...

Prosocial behaviour has its roots in infancy and early childhood. To fully capture its importance it is essential to understand how it develops across ages, the factors that contribute to individual differences, its moral and value bases, the clinical aspects of low and excessive prosocial behaviour, and its relevance for schooling.

How's Life? 2017 charts the promises and pitfalls for people's well-being in 35 OECD countries and 6 partner countries. It presents the latest evidence from 50 indicators, covering both current well-being outcomes and resources for future well-being, and including changes since 2005. During this period there have been signs of progress, but gains in some aspects of life have been offset by ...

Preamble. This Agenda is a plan of action for people, planet and prosperity. It also seeks to strengthen universal peace in larger freedom. We recognise that eradicating poverty in all its forms and dimensions, including extreme poverty, is the greatest global challenge and an indispensable requirement for sustainable development.

12 Rules for Life is a collection of life principles that, if followed, are meant to improve your life. It reached the #1 spot on Amazon's bestsellers list, and clearly it resonates with a lot of people. Its author (Jordan Peterson, a clinical psychologist and U Toronto professor) argues that modern secularism and reliance on

science has left a void in answers to important existential ...
