Laws of nature The notion of a law of nature is fundamental to science. In one sense this is obvious, in that much of science is concerned with the discovery of laws (which are often named after their discoverers hence Boyle's law, Newton's laws, Ostwald's law, Mendel's laws, and so on).

## **Laws of nature - Site Disabled**

The school of natural law known as secular natural law replaces the divine laws of God with the physical, biological, and behavioral laws of nature as understood by human reason. This school theorizes about the uniform and fixed rules of nature, particularly human nature, to identify moral and ethical norms.
