

the social neuroscience of pdf

Social neuroscience is an interdisciplinary field devoted to understanding how biological systems implement social processes and behavior, and to using biological concepts and methods to inform and refine theories of social processes and behavior. Humans are fundamentally a social species, rather than individualists. As such, Homo sapiens create emergent organizations beyond the individual ...

Neuroscience of psychoactive substance use and dependence

Just a comment : it might be worth noticing some analogies between social neuroscience definition of Certainty such as this statement : Without prediction, the brain must use dramatically more resources , involving the more energy-intensive prefrontal cortex, to process moment to moment experience

Social Neuroscience, SCARF Model and Change Management

Neuroscience (or neurobiology) is the scientific study of the nervous system. It is a multidisciplinary branch of biology, that combines physiology, anatomy, molecular biology, developmental biology, cytology, mathematical modeling and psychology to understand the fundamental and emergent properties of neurons and neural circuits. The understanding of the biological basis of learning, memory ...
