A tram (also tramcar; and in North America streetcar, trolley or trolley car or train car, and in Australia as tram or light rail) is a rail vehicle which runs on tramway tracks along public urban streets, and also sometimes on a segregated right of way. The lines or networks operated by tramcars are called tramways. Tramways powered by electricity, the most common type, were once called ...

### **Tram - Wikipedia**

A tram-train is a light-rail public transport system where trams run through from an urban tramway network to main-line railway lines which are shared with conventional trains. This combines the tram's flexibility and accessibility with a train's greater speed, and bridges the distance between main railway stations and a city centre.
