A paradigm shift, a concept identified by the American physicist and philosopher Thomas Kuhn, is a fundamental change in the basic concepts and experimental practices of a scientific discipline. Kuhn contrasts paradigm shifts, which characterize a scientific revolution, to the activity of normal science, which he describes as scientific work done within a prevailing framework (or paradigm).

In mythology, folklore and speculative fiction, shapeshifting is the ability of a being or creature to completely transform its physical form or shape. This is usually achieved through an inherent ability of a mythological creature, divine intervention, or the use of magic. The idea of shapeshifting is present in the oldest forms of totemism and shamanism, as well as the oldest extant ...
